Case No.

**CLASS ACTION COMPLAINT
FOR VIOLATIONS OF ERISA**

¹ Additional counsel listed on signature page.

1 1. Plaintiff, Patricia Du Vall (“Plaintiff”), by and through her attorneys, on
2 behalf of herself and all others similarly situated, based on personal knowledge with
3 respect to her own circumstances and based upon information and belief pursuant to
4 the investigation of her counsel as to all other allegations, alleges as follows:

5 **NATURE OF THE ACTION AND SUMMARY OF CLAIMS**

6 2. Defendants invested the assets in the Disney Savings and Investment
7 Plan (the “Plan”) in The Sequoia Fund (the “Fund”), a high-cost mutual fund run by
8 Adviser Ruane, Cunniff & Goldbarb and its Portfolio Managers, Robert D. Goldfarb
9 and David M. Poppe (collectively, the “Fund Managers”).

10 3. Throughout 2015—in violation of the Fund’s investment policies and
11 despite the concerns of Fund shareholders—the Fund Managers concentrated the
12 Fund’s assets in a single stock, Valeant Pharmaceuticals, Inc. (“Valeant”). The Fund
13 was the largest shareholder in Valeant in 2015, owning nearly 10 percent of Valeant.
14 And Valeant represented more than 30 percent of the Fund’s total assets.

15 4. The Plan provides that Plan participants would have at least three
16 investment funds into which they could invest their retirement savings and that
17 “[e]ach such additional Investment Fund *shall be diversified*” See Plan
18 Document § 6.01(h)(i) (emphasis added). The Plan also states that “[t]he Company
19 recognizes that an investment in an undiversified fund . . . is subject to greater risk
20 than is an investment in a diversified fund” *Id.* § 6.01(a)(i)(D). Accordingly, the
21 Fund violated the Plan’s investment policies by offering the Fund as an investment
22 option for participants. Moreover, Valeant had a well-known reputation for
23 misleading investors with faulty accounting and profit expectations and gouging
24 consumers in the sale of pharmaceuticals. In the process, Valeant had earned a
25 nickname, “the Pharmaceutical Enron,” which subsequently turned out to be all-too-
26 true for its investors, including the Sequoia Fund and through the Fund, the Plan and
27 its participants.

1 5. In October, 2015, despite the warning signs and Sequoia’s already
2 concentrated position, the Fund Managers bought *even more* shares of Valeant for the
3 Fund. On May 31, 2016, Sequoia announced it finally sold half of its holdings in
4 Valeant, reducing its ownership of the company to under 5 percent, but by that point
5 Valeant’s stock had already dropped by over 88 percent in less than a year. Valeant’s
6 stock price has shed an additional 20 percent since then.

7 6. Because of its concentration in Valeant and its fees, the Fund
8 underperformed its benchmark, the S&P 500 Index, by 6.14% in 2014, 8.68% in
9 2015, and 15.17% from January 1 through June 15, 2016.

10 7. Despite these violations of both the Plan’s and the Fund’s investment
11 policies, public warnings, high fees and poor performance, Defendants have and
12 continue to invest a significant portion of the Plan’s assets in the Sequoia Fund.

13 8. This is a class action brought pursuant to Sections 409 and 502 of the
14 Employee Retirement Income Security Act (“ERISA”), 29 U.S.C. §§ 1109 and 1132,
15 against the fiduciaries of the Plan. All of the Plan’s investments are all held in the
16 Disney Savings Plan Master Trust (the “Master Trust”), which also holds the
17 investments of other retirement plans offered by The Walt Disney Company (the
18 “Company”).

19 9. This case concerns Defendants’ imprudent management of the Plan’s
20 assets by failing to remove the Sequoia Fund from the Plan when it became apparent
21 that the Fund was no longer a suitable investment for participants’ retirement savings.
22 Defendants were required by ERISA to exercise due care, skill, prudence, and
23 diligence when making decisions with respect to selecting, removing, replacing, and
24 monitoring the Plan’s investments. Defendants’ fiduciary duties are among the
25 “highest [duties] known to the law.” *Donovan v. Bierwirth*, 680 F.2d 263, 272 (2d Cir.
26 1982). Consistent with these fiduciary duties, Defendants had a fiduciary duty to
27 Plaintiff, the Plan, and the other participants in the Plan to offer only prudent
28 investment options. A fiduciary has “a continuing duty of some kind to monitor

1 investments and remove imprudent ones” and “a plaintiff may allege that a fiduciary
2 breached the duty of prudence by failing to properly monitor investments and remove
3 imprudent ones.” *Tibble v. Edison Int’l*, 135 S. Ct. 1823, 1829 (2015). In violation of
4 these duties, Defendants selected and repeatedly failed to remove or replace the Fund.

5 10. As more fully set forth below, Defendants breached their fiduciary duties
6 owed to the Plan and their Participants, including those fiduciary duties set forth in
7 ERISA § 404, 29 U.S.C. § 1104, and Department of Labor Regulations, 29 C.F.R.
8 § 2550. As a result of these breaches, Defendants are liable to the Plan for all losses
9 resulting from each such breach of fiduciary duty. Plaintiff also seeks equitable relief.

10 11. Plaintiff’s First Cause of Action alleges that it was imprudent to permit
11 the Plan to maintain the Sequoia Fund as an investment option as the Fund became
12 increasingly concentrated in Valeant and less diversified in 2015 in violation of Plan
13 requirements and prudent retirement plan management.

14 12. Moreover, public information demonstrated that the Sequoia Fund was
15 an extremely risky investment which was imprudent for the investment of retirement
16 assets. Specifically, the Fund was violating its investment policies by highly
17 concentrating its assets in the common stock of Valeant, despite numerous warnings
18 that Valeant relied on an uncertain business model whose price was artificially
19 inflated due to questionable accounting practices.

20 13. Defendants allowed the imprudent investment of the Plan’s assets in the
21 Sequoia Fund throughout the Class Period despite the fact that Defendants clearly
22 knew or should have known that the Sequoia Fund was an imprudent investment. A
23 prudent fiduciary would have recognized that as a consequence of the public
24 information about the riskiness of the Sequoia Fund, the Plan’s significant investment
25 of employees’ retirement savings in the Sequoia Fund would inevitably result in
26 devastating losses to the Plan and, consequently, to the Plan’s Participants.

27 14. Plaintiff’s Second Cause of Action alleges that all Defendants are liable
28 for their co-fiduciaries breaches because they (i) knew of the other fiduciary’s

1 breaches and failed to remedy them, (ii) knowingly participated in a breach, and/or
2 (iii) enabled the fiduciary breach through their own actions/inactions.

3 15. Plaintiff, a participant in the Plan, brings this action concerning the
4 Plan's investment in the Sequoia Fund, individually, as a representative of the Plan
5 and, to the extent appropriate, on behalf of a class of all participants in the Plan whose
6 retirement assets are invested in the Master Trust that invested in the Sequoia Fund,
7 from January 1, 2015, through and including the date of judgment in this Action (the
8 "Class Period").

9 16. This action is brought on behalf of the Plan and seeks to recover losses
10 to the Plan resulting from Defendants' breaches of their fiduciary duties pursuant to
11 ERISA §§ 409 and 502, 29 U.S.C. §§ 1109 and 1132. Because Plaintiff's claims apply
12 to the Plan, inclusive of all Participants with accounts invested in the Fund during the
13 Class Period, and because ERISA specifically authorizes participants such as Plaintiff
14 to sue for relief for the Plan for breaches of fiduciary duty such as those alleged
15 herein, Plaintiff brings this lawsuit on behalf of the Plan and all Participants and
16 beneficiaries of the Plan during the proposed Class Period.

17 17. As more fully set forth below, Defendants breached their fiduciary duties
18 owed to the Plan and the Participants, including those fiduciary duties set forth in
19 ERISA § 404, 29 U.S.C. § 1104, and Department of Labor Regulations, 29 C.F.R.
20 § 2550. As a result of these breaches, Defendants are liable to the Plans for all losses
21 resulting from each such breach of fiduciary duty. Plaintiff also seeks equitable relief,
22 including disgorgement.

23 **JURISDICTION AND VENUE**

24 17. This Court has exclusive jurisdiction over the subject matter of this
25 action under 29 U.S.C. § 1132(e)(1) and 28 U.S.C. § 1331 because it is an action
26 under 29 U.S.C. § 1132(a)(2).

27
28

1 18. This Court has personal jurisdiction because Defendants administered
2 and breached their duties to the Plan and have their principal place of business and/or
3 reside in this District.

4 19. Venue is proper in this district under 29 U.S.C. § 1132(e)(2) and
5 28 U.S.C. §§ 1391(b)-(c) because Defendants administered and breached their duties
6 to the Plan and have their principal place of business and/or reside in this District.

7 **PARTIES**

8 20. Plaintiff is a resident of Vero Beach, Florida. Plaintiff is a participant in
9 the Plan whose account was invested in the Sequoia Fund throughout the Class
10 Period.

11 21. Upon information and belief, Defendant Investment and Administrative
12 Committee of The Walt Disney Company Sponsored Qualified Benefit Plans and Key
13 Employees Deferred Compensation and Retirement Plan (“Committee”) is an
14 unincorporated association which is the Plan’s administrator and named fiduciary. Its
15 principal place of business is in Burbank, California, the headquarters of the Walt
16 Disney Company.

17 22. The individual members of the Committee are dictated by the Disney
18 Savings and Investment Plan, As Amended and Restated, effective January 1, 2010
19 (the “Plan Document”). Section 9.01 of the Plan Document provides that the
20 Committee shall be comprised of the individuals holding the following positions with
21 the Company: (a) Senior Executive Vice President and Chief Financial Officer; (b)
22 Senior Vice President and General Counsel; (c) Executive Vice President – Planning
23 and Control; (d) Senior Vice President and Treasurer; (e) Senior Vice President –
24 Human Resources; (f) Senior Vice President – Compensation and Benefits; (g) Vice
25 President – Financial Risk Management; (h) Vice President – Counsel, Benefits; and
26 (i) Vice President – Employee Benefits. *See* Plan Document §§ 9.01(a) and (b).

27
28

1 23. Upon information and belief, Defendant Jay Rasulo is an individual who
2 is a resident of the State of California. Mr. Rasulo was the Company's CFO and a
3 member of the Committee until June 30, 2015.

4 24. Upon information and belief, Defendant Christine McCarthy is an
5 individual who is a resident of the State of California. Ms. McCarthy has been the
6 Company's CFO since July 1, 2015 and a member of the Committee since at least that
7 time. Immediately prior to becoming CFO, Ms. McCarthy was a member of the
8 Committee by virtue of her position as the Company's Treasurer and therefore a
9 member of the Committee during all relevant times described in this Complaint.

10 25. Upon information and belief, Defendant Alan Braverman is an individual
11 who is a resident of the State of California. Mr. Braverman is the Company's General
12 Counsel and has been a member of the Committee during all relevant times described
13 in this Complaint.

14 26. Upon information and belief, Defendant Brent Woodford is the
15 Company's Executive Vice President for Planning and Control and a member of the
16 Committee during all relevant times described in this Complaint.

17 27. Upon information and belief, Defendant Jonathan S. Headley is an
18 individual who is a resident of the State of California. Mr. Headley has been the
19 Company's Treasurer since September 1, 2015 and a member of the Committee since
20 that time.

21 28. Upon information and belief, Defendant Jayne Parker is an individual
22 who is a resident of the State of California. Ms. Parker is the Company's Senior Vice
23 President for Human Resources and a member of the Committee during all relevant
24 times described in this Complaint.

25 29. Does 1 through 10, inclusive, are the other individual members of the
26 Committee whose names and identities are currently not known.

27
28

DESCRIPTION OF THE PLAN

1
2 30. At all times relevant to this Complaint, the Plan was an employee benefit
3 plan within the meaning of ERISA § 3(3) and 3(2)(A), 29 U.S.C. §§ 1002(3) and
4 1002(2)(A).

5 31. At all times relevant to this Complaint, the Plan was a “defined
6 contribution” or “individual account” plan within the meaning of ERISA § 3(34),
7 29 U.S.C. § 1002(34), in that the Plan provided for individual accounts for each
8 participant and for benefits based upon the amount contributed to the participant’s
9 account, and any income, expenses, gains and losses, and any forfeitures of accounts
10 of other participants which could be allocated to such participants’ accounts.

11 32. The stated purpose of the Plan is to “provide a retirement savings vehicle
12 for certain salaried employees of the Company” *See* Plan Document at Preamble.

13 33. The Plan’s investments are all held by the Master Trust. As of December
14 31, 2014, the Plan’s interest in the net assets of the Master Trust was 93%. *See* Disney
15 Savings and Investment Plan Financial Statements for 2014 dated June 26, 2015
16 (“Plan’s 2014 Financial Statements”) at Note 6.

17 34. The Plan Document provides that the investment options in the Plan
18 “may be established by the Committee” and that the Committee “shall have the sole
19 discretion to determine the number and character of” these investment options. *See*
20 Plan Document § 6.01(a)(ii). The Committee “in its sole discretion, shall have the
21 authority to limit or eliminate the availability of” any of the investment options
22 offered to the Plan’s participants. *Id.*

23 35. The Plan Document provides that the Committee “shall adopt such rules
24 and procedures as it deems advisable with respect to all matters relating to the
25 selection and use of the Investment Funds” *See* Plan Document § 6.01(b). The
26 Plan Document also provides that Plan participants would have at least three
27 investment funds into which they could invest their retirement savings and that
28 “[e]ach such additional Investment Fund *shall be diversified*” *See* Plan

1 Document § 6.01(h)(i) (emphasis added). In the Plan Document, it states that “[t]he
2 Company recognizes that an investment in an undiversified fund . . . is subject to
3 greater risk than is an investment in a diversified fund” *Id.* § 6.01(a)(i)(D).

4 36. As of December 31, 2014, \$538,974,134 or 8.8% of the Master Trust’s
5 assets were invested in the Fund. *See* Master Trust’s Form 5500 for the year ending
6 December 31, 2014 at Schedule H, Line 4i.

7 **BACKGROUND FACTS**

8 **I. The Sequoia Fund Violated the Fund’s Investment Policies and the Plan’s**
9 **Diversification Requirements.**

10 37. The Fund is an open-end mutual fund managed by the Fund Managers.

11 38. The Fund provides reports to its shareholders in June and December each
12 year. The Fund also reports its portfolio holdings in March and September each year
13 in Form N-Q filings with the Securities and Exchange Commission. Defendants, in
14 the exercise of their Plan duties, knew or should have known the content thereof and
15 should have reviewed these documents for red flags.

16 39. The Investment Company Act of 1940 (the “1940 Act”) provides that a
17 mutual fund’s registration’s statement must recite all investment policies that can be
18 changed only by shareholder vote. *See* 15 U.S.C. § 80a-8(b). The Fund’s investment
19 policies were adopted and subsequently incorporated in its Registration Statement and
20 its Prospectus.

21 40. Although the Plan Document required all investment options other than
22 the Company Stock Fund to be diversified, the Fund, as stated in its Prospectus, is
23 “non-diversified,” meaning that more than 5% of its assets were invested in the
24 securities of one company. *See* 15 U.S.C. § 80a-5(b) and the Sequoia Fund’s 2015
25 Prospectus, available at: http://www.sequoiafund.com/prospectus_files/Pros15.pdf.

26 41. Although it was a “non-diversified” mutual fund, at all relevant times the
27 Fund adopted a policy to limit the percentage of its total assets that were invested in
28

1 one industry (the “Concentration Policy”). The Concentration Policy states that the
2 Fund may not:

3 Concentrate investments in an industry, as concentration may
4 be defined under the 1940 Act or the rules and regulations
5 thereunder (as such statute, rules or regulations may be
6 amended from time to time) or by guidance regarding,
7 interpretations of, or exemptive orders under, the 1940 Act, or
8 the rules or regulations thereunder published by appropriate
9 regulatory authorities.

10 *See, e.g.*, Sequoia Fund’s 2016 Statement of Additional Information, available at:
11 http://www.sequoiafund.com/prospectus_files/SAI16.pdf.

12 42. Form N-1A, the registration form for open-end mutual funds like the
13 Sequoia Fund, reflects the SEC’s long-standing view that “25% is an appropriate
14 benchmark to gauge the level of investment concentration that could expose investors
15 to additional risk,” and thus “a fund investing more than 25% of its assets in an
16 industry is concentrating in that industry.” *See* 1998 Release, 63 Fed. Reg. at 13,927.
17 Accordingly, the Concentration Policy prohibited the Sequoia Fund from investing
18 25% or more of the fund’s total assets in any single industry.

19 43. The 1940 Act expressly prohibits a mutual fund like the Sequoia Fund
20 from “deviat(ing) from its policy in respect of concentration in investments in any
21 particular industries or group of industries” *See* 15 U.S.C. § 80a-5(b).

22 44. The Sequoia Fund’s 2015 Prospectus also set forth the Fund’s strategy of
23 selling assets that are no longer believed to have “fundamental value” (the “Value
24 Policy”). The 2015 Prospectus stated:

25 The Fund’s investment objective is long-term growth of capital.
26 In pursuing this objective the Fund focuses principally on
27 common stocks it believes are undervalued at the time of
28 purchase and have the potential for growth. A guiding principal
in the consideration of common stocks as units of ownership of
a business and the purchase of them when the price appears low
in relation to the value of the total enterprise. No weight is
given to technical stock market studies. The balance sheet and
earnings history and prospects of each investment are
extensively studied to appraise fundamental value.

1 See 2015 Prospectus dated May 1, 2015 at 1-2, available at:
2 http://www.sequoiafund.com/prospectus_files/Pros15.pdf.

3 45. The Value Policy also states that the Fund:
4 typically sells the equity security of a company when the company
5 shows deteriorating fundamentals, its earnings progress falls short of
6 investment adviser's expectations or its valuation appears excessive
7 relative to its future earnings.

8 *Id.* at 2.

9 46. As of December 31, 2014, the Sequoia Fund held 11,281,224 shares of
10 Valeant stock. The Fund's holdings in Valeant as of December 31, 2014, accounted
11 for 20% of the Fund's total net assets. See Annual Report dated December 31, 2014,
12 available at: <http://www.sequoiafund.com/Reports/Annual/Ann14.pdf>.

13 47. As of March 31, 2015, the Sequoia Fund held 11,281,224 shares of
14 Valeant stock worth \$2,240,676,711, accounting for more than 26% of the Fund's
15 total net assets. See Sequoia Fund's Form N-Q at Item 1, Schedule of Investments as
16 of March 31, 2015. Thus, with Valeant *alone*, the Sequoia Fund was violating its
17 Concentration Policy as of *at least* March 31, 2015.

18 48. As of June 30, 2015, 28.7% of the Sequoia Fund's assets were invested
19 in Valeant stock and 30% of the Fund's assets were invested in stocks in the
20 healthcare industry. See Semi-Annual Report dated June 30, 2015, available at:
21 <http://www.sequoiafund.com/Reports/Quarterly/SemiAnn15.pdf>.

22 49. These levels of concentration in a single security are too high for any
23 mutual fund that is a retirement plan investment option, especially considering the
24 security here, Valeant, and the Plan's diversification mandate for investment options.
25 By comparison, the table below shows the largest holdings in each of the ten most
26 common large-cap domestic stock funds in 401(k) plans, according to the latest
27 reports available to Morningstar, a third-party mutual fund research service.
28

Fund	Largest Holding	Percent of Total Fund
VINIX	Apple	3.0%
FCNTX	Facebook	5.8%
FUSEX	Apple	2.8%
FDGRX	Apple	4.6%
DODGX	Time Warner Cable	4.2%
VFINX	Apple	3.0%
AGTHX	Amazon.com	6.0%
VPMCX	Biogen	5.4%
VWNFX	Microsoft	3.2%
VTSMX	Apple	2.4%

50. ERISA requires fiduciaries to use “the care, skill, prudence, and diligence under the circumstances then prevailing that a prudent man acting in a like capacity and familiar with such matters would use in the conduct of an enterprise of a like character and with like aims.” 29 U.S.C. § 1104(a)(1).

51. Prudent fiduciaries do not, as shown above, invest 401(k) plan assets in large-cap domestic stock funds with such high concentrations in a single stock. *See also* Morningstar, *Understanding Mutual Fund Strategies and Fundamental Risk* (“For example, if a fund has a stock position over 10 percent or a few over 5 percent, it’s more vulnerable to problems at an individual company”).

52. This is particularly true in this case given the Plan’s diversification restrictions as alleged above.

II. Valeant Was a Particularly Risky Stock, with Numerous Warning Signs that Should Have Caused Defendants to Remove the Fund.

53. The Sequoia Fund’s concentration in Valeant was especially risky—and in violation of the Fund’s Value Policy—due to the nature of Valeant’s business model. Valeant is a Canadian healthcare company that develops, manufactures and markets branded, generic and branded generic pharmaceuticals, over-the-counter products and other medical products.

1 54. A “critical element” of Valeant’s strategy was “business development”
2 through acquisitions. *See* Valeant’s 2014 Annual Report dated February 25, 2015 at 1,
3 available at: [http://ir.valeant.com/~media/Files/V/Valeant-IR/reports-and-presentatio](http://ir.valeant.com/~media/Files/V/Valeant-IR/reports-and-presentations/893698-final-ar-2015-v001-x21nf3.pdf)
4 [ns/893698-final-ar-2015-v001-x21nf3.pdf](http://ir.valeant.com/~media/Files/V/Valeant-IR/reports-and-presentations/893698-final-ar-2015-v001-x21nf3.pdf).

5 55. Valeant developed a reputation as a “serial acquirer” whereby it would
6 buy products and companies and then drastically slash research and development
7 costs to boost profits. Valeant’s numerous acquisitions resulted in repeated
8 restructuring and integration costs and constant changes to Valeant’s balance sheets
9 and its earnings reports. *See, e.g.*, Rapoport, M. and Hoffman, L, (December 15,
10 2015), “Valeant: An Accounting Pioneer, Too,” *The Wall Street Journal*, available at:
11 <http://www.wsj.com/articles/valeant-an-accounting-pioneer-too-1450202504>. Thus,
12 Valeant was overly focused on short-term profits derived from increasing the prices of
13 its drugs but essentially ignored developing newer drugs of its own.

14 56. Valeant’s accounting methods further concealed its true value. Valeant
15 used “cash earnings per share” as its earnings measure. This method shows far greater
16 income than under standard GAAP rules that investors typically use to compare
17 companies. Under GAAP, the company posted \$70 million in net income for the first
18 nine months of 2015. Under its own cash earnings measure, however, the company
19 posted a *profit* of \$2.7 billion. *Id.*

20 57. The Sequoia Fund’s major investment in Valeant, with its
21 unconventional business model and non-traditional financial statements and metrics,
22 was diametrically opposed to the Fund’s Value Policy.

23 58. Defendants knew or should have known of these problems with Valeant
24 and the Fund no later than September 2015.

25 **III. Prudent Fiduciaries Do Not Invest 401(k) Assets in Mutual Funds with**
26 **High Concentrations in Valeant (or any other) Stock.**

27 59. The Fund was a large-cap domestic equity Fund.
28

60. Of the ten most common large-cap domestic equity funds included in 401(k) plans by similar fiduciaries, only one included any investment in Valeant in 2014 or 2015. As shown in the table below, its holding was a tiny fraction of the Fund's concentration in Valeant, representing 0.1% of that fund's assets, as opposed to nearly 20% of Sequoia's assets.

Fund	Fee	2015 % Valeant ²	2014 % Valeant	2014 Return	2015 Return	2016 Return to June 30, 2016
VINIX	4 bps	0.0%	0.0%	13.65%	1.37%	3.55%
FCNTX	70 bps	0.0%	0.0% ³	9.56%	6.46%	0.32%
FUSEX	10 bps	0.0% ⁴	0.0% ⁵	13.59%	1.31%	3.53%
FDGRX	88 bps	0.1% ⁶	0.3% ⁷	14.44%	7.83%	-2.68%
DODGX	52 bps	0.0%	0.0%	10.40%	-4.49%	3.42%

1 62. Meanwhile, other investors who had invested in the Sequoia Fund pulled
2 their money out as the Valeant concentration increased. Investors withdrew more than
3 \$500 million from the Fund in 2014 alone, and an additional \$213 million during the
4 first 10 months of 2015.¹⁵ Defendants should have monitored these outflows to
5 determine whether the Plan should take similar action.

6 **IV. There Were Ample Warning Signs Defendants Should Have Seen that the**
7 **Sequoia Fund’s Concentration in Valeant Made the Fund an Imprudent**
8 **Investment.**

9 63. Defendants should have been vigilant in selecting and monitoring the
10 prudence of all Plan investment options. But they should have been particularly
11 careful with monitoring the Sequoia Fund given the half-billion of Plan assets
12 invested therein and the Fund’s lack of diversification. Notwithstanding these facts
13 and duties, Defendants failed to properly monitor and remove the Fund.

14 64. Valeant’s controversial business practices and opaque financial
15 statements ultimately led to a substantial fall in its stock price in September 2015 that
16 significantly affected the Sequoia Fund’s performance. However, there were serious
17 questions about Valeant’s business model and accounting methods long before its
18 precipitous decline that should have alerted Defendants that the Sequoia Fund’s
19 substantial investment in Valeant made the Sequoia Fund an imprudent investment for
20 the Plan’s participants.

21 65. In March 2014, Jim Grant, the editor of an investment journal, criticized
22 Valeant for its notable lack of concern for research and development, calling it a
23 “financialized pharmaceutical company” and stating that “the longer a business is
24 under a Valeant umbrella, the worse it performs.”

25 66. In May 2014, Bronte Capital’s John Hempton announced that his fund
26 was shorting Valeant, calling its accounting “difficult to comprehend.”

27 _____
28 ¹⁵ <http://www.bloomberg.com/news/articles/2015-11-10/valeant-holder-sequoia-fund-sees-98-9-million-in-outflows>.

1 67. On May 15, 2014, hedge fund billionaire Jim Chanos voiced his
2 skepticism when he stated that Valeant was playing “aggressive accounting games.”
3 Mr. Chanos also criticized Valeant’s acquisition strategy, noting the dangers and
4 potential accounting issues associated with relying on purchasing other companies for
5 long-term growth.

6 68. Morgan Stanley, which served as an adviser to Valeant in its failed
7 \$53 billion hostile bid for Allergan, Inc. also voiced its skepticism of Valeant. In June
8 2014, an email from a Morgan Stanley investment banker was released in which he
9 called Valeant a “house of cards.”

10 69. In February 2015, Valeant purchased a portfolio of older branded drugs.
11 After Valeant acquired them it dramatically increased their prices. Two of the drugs,
12 Nitropress and Isuprel, were important cardiac medicines used by hospitals during
13 heart surgery. These price increases prompted a harsh reaction from politicians,
14 insurers, hospitals and the general public, leaving the impression that Valeant’s
15 business was primarily driven by acquisitions and temporary, but unsustainable, price
16 increases.

17 70. On March 26, 2015, Charlie Munger, the Vice Chairman of Berkshire
18 Hathaway, stridently criticized Valeant and its then CEO, J. Michael Pearson. When
19 asked about Valeant at an investor meeting, Mr. Munger compared Valeant to ITT, a
20 company notorious for having earnings that were derived from its aggressive
21 acquisition strategy but whose true value was hollow because it would cover the
22 losses from one acquisition with the “paper profits” of the next one. Mr. Munger
23 stated: “Valeant is like ITT and Harold Geneen (ITT’s former CEO) come back to
24 life, only the guy is worse this time.” “The guy” Mr. Munger referred to was Valeant’s
25 CEO, J. Michael Pearson.

26 71. The harsh criticisms of the Sequoia Fund’s investment strategy and its
27 substantial investment in Valeant did not come from just a few Wall Street investors.
28 At the Sequoia Fund’s annual investors’ day that took place on May 15, 2015, the

1 Fund's investment in Valeant dominated the conversation. The Sequoia Fund's
2 managers openly stated that they would not sell Valeant, in contravention of the
3 Fund's Concentration Policy.

4 72. An investor asked the following at the May 15, 2015 investors' day
5 meeting to the Fund's investment manager, Bob Goldfarb:

6 Q: My main question was then do you plan on keeping the
7 (Fund's) holdings (of Valeant) at 20% or more of your
8 portfolio, or are you going to reduce that?

9 A: We are going to hold it. We believe (Valeant) will
10 continue to grow (earnings per share) at a rapid rate and
11 that the stock should do quite well.

12 See Transcript from May 15, 2015 Investors' Day at 16, available at:
13 <http://www.sequoiafund.com/Reports/Transcript15.pdf>.

14 73. Mr. Goldfarb's response to the question about the Fund's continued
15 investment in Valeant demonstrated that the Fund was violating the Fund's
16 Concentration Policy by investing more than 25% of its assets invested in a single
17 security, when the policy prohibited investment of more than 25% in a single
18 *industry*. Mr. Goldfarb's comments also demonstrated the Fund's investment in
19 Valeant was violating the Value Policy in which the Fund purported to focus on a
20 company's "balance sheet and earnings history."

21 74. The May 15, 2015 investors' meeting also made clear that the Sequoia
22 Fund's earnings were substantially linked to Valeant. If Valeant's stock price did not
23 continue to increase at its unsustainable rate, or, even worse, declined, it would have a
24 dramatic effect on the Sequoia Fund. By 2015, as Valeant went, so went the Sequoia
25 Fund.

26 75. On December 31, 2014, the Sequoia Fund reported that Valeant
27 represented 20% of its portfolio. Given the Plan's diversification policy and the risk
28 that high concentrations in a single investment pose to retirement plan investors,
29 Defendants should have taken steps to remove the fund from the Plan.

1 76. On March 31, 2015, the Sequoia Fund reported that Valeant represented
2 26% of its portfolio. Given the Plan’s diversification policy and the risk that high
3 concentrations in a single investment pose to retirement plan investors, Defendants
4 should have taken steps to remove the fund from the Plan.

5 77. The Sequoia Fund’s Semi-Annual Report issued to investors on June 30,
6 2015 also should have made it clear to Defendants that the Fund was no longer a
7 prudent investment option for the Plan’s participants (if indeed it ever was). In the
8 Semi-Annual Report, it was disclosed that 28.7% of the Fund’s holdings were in
9 Valeant and that 30% of its holdings were concentrated in Healthcare stocks. *See*
10 Semi-Annual Report dated June 30, 2015.

11 78. Information subsequent to the Fund’s semi-annual report dated June 30,
12 2015 provided further evidence that the Sequoia Fund’s concentrated investment
13 Valeant made the Sequoia Fund an imprudent investment option for the Plan’s
14 participants. On August 14, 2015, Senator Bernie Sanders (D. Vt.) and Congressman
15 Elijah Cummings (D. Md.) requested information from Valeant on why it had
16 aggressively increased the price of Nitropress and Isuprel.

17 79. On September 28, 2015, Democrats on the U.S. House of
18 Representatives Oversight and Government Reform Committee signed a letter to the
19 chairman, Rep. Jason Chaffetz (R. Utah) asking him to subpoena Valeant about its
20 “massive price increases.”

21 80. The criticisms of Valeant went far beyond public relations concerns
22 resulting from any price increases—they questioned Valeant’s *entire* business model.
23 In September 2015, Andrew Left of Citron Research published a report on Valeant
24 citing the company’s dramatic price increases. According to Mr. Left, Valeant’s model
25 was to “jack up prices and cut spending.” Mr. Left also noted that in particular,
26 Valeant was dramatically cutting spending on research and development (R&D),
27 negatively impacting its ability to develop new drugs. Mr. Left noted that other
28 pharmaceutical companies in the industry spent on average 17% on R&D while

1 Valeant was only spending 3%. On October 5, 2015, a Deutsche Bank analyst
2 concluded that Valeant increased the prices on 54 medications in 2015 by an average
3 of 66%. This percent increase was dramatically higher than the industry average of
4 5% per year.

5 81. On October 15, 2015, Valeant disclosed that it received two subpoenas
6 concerning its drug pricing strategy.

7 82. On October 21, 2015, Citron Research released report titled: "Valeant:
8 Could this be the Pharmaceutical Enron?" In this report, Citron emphasized Valeant's
9 mysterious relationship with Philidor, a pharmacy that distributes drugs for specialty
10 pharmacy, which Valeant had an option to purchase. In its report, Citron insinuated
11 that Valeant was involved in deceptive accounting practices involving Philidor and
12 asked whether Valeant was "Enron part Deux??"

13 83. The increasing concentration in Valeant stock and the public information
14 about Valeant, the increasing concentration of the Fund's investment in Valeant, and
15 the Plan's diversification policy should have caused Defendants to remove the
16 Sequoia Fund from the Plan no later than September 2015.

17 **V. The Sequoia Fund's Valeant Investment Caused the Plan Substantial**
18 **Losses.**

19 84. Between October 20 and October 22, 2015, Valeant's stock price fell
20 30%. On October 30, 2015, in an effort to calm the price of Valeant stock, investor
21 William Ackman held a conference call. Following the call, the price of Valeant's
22 shares fell another 16%.

23 85. Even dissension *within* the Sequoia Fund did not cause Defendants to
24 remove the Sequoia Fund from the Master Trust's list of available investment funds.
25 On October 25, 2015, two of the Sequoia Fund's four independent directors, Vinod
26 Ahooja and Sharon Osberg, abruptly resigned to publically voice their dissent over
27 the Fund's strategy. Their resignations followed the Sequoia Fund's announcement
28 that it had purchased *an additional* 1.5 million shares of Valeant.

1 86. Undeterred by the wave of internal and external criticism, the Sequoia
2 Fund sent a letter to Fund shareholders on October 28, 2015 to try to rationalize its
3 reckless investment in Valeant. The letter stated:

4 We work hard to understand Valeant and its business model.
5 Our belief has always been that (Valeant's CEO) is honest and
6 extremely driven. He does everything legally permissible to
7 maximize Valeant's earnings. One lesson of recent events is that
8 sometimes doing everything legally permissible to maximize
9 earnings does not create shareholder value. All enduring
10 businesses must strive to earn and maintain a good reputation.
11 Because of its large indebtedness and need to tap capital
12 markets to make acquisitions Valeant in particular needs the
13 confidence of the credit market to execute its business model.

14 *See* Letter to Fund Shareholders from the Fund Managers dated October 28, 2015,
15 available at: [http://www.sequoiafund.com/Letter%20to%20Clients%20and%20Share](http://www.sequoiafund.com/Letter%20to%20Clients%20and%20Shareholders.pdf)
16 [holders.pdf](http://www.sequoiafund.com/Letter%20to%20Clients%20and%20Shareholders.pdf).

17 87. From its peak in August 2015 until November 17, 2015, Valeant stock
18 declined from \$263 a share to less than \$70 a share. During the same time, the
19 Sequoia Fund lost approximately 25% of its value.

20 88. Between October 1, 2015 and December 31, 2015, the Sequoia Fund lost
21 9.1% of its value. During the same period, the Standard and Poor (S&P) 500 Index
22 Fund *gained* 7.04%. During 2015, the Sequoia Fund lost 7.31% of its value. Nearly
23 all of this decline, 6.3% of the 7.31%, was due to the Fund's holdings in Valeant. *See*
24 Sequoia Fund's Semi-Annual Report dated December 31, 2015 at 4.

25 89. According to a report published on November 19, 2015, the Sequoia
26 Fund ranked 1,258 out of 1,265 large capitalization stock mutual funds based on 1-
27 year performance. This dismal ranking was due to the precipitous decline in Valeant's
28 stock price.

 90. The Plan, Plaintiff, and similarly-situated participants suffered the
consequences

DEFENDANTS WERE FIDUCIARIES

1
2 91. ERISA requires every plan to provide for one or more named fiduciaries
3 who will have “authority to control and manage the operation and administration of
4 the plan.” ERISA § 402(a)(1), 29 U.S.C. § 1102(a)(1).

5 92. ERISA treats as fiduciaries not only persons explicitly named as
6 fiduciaries under § 402(a)(1), 29 U.S.C. § 1102(a)(1), but also any other persons who
7 in fact perform fiduciary functions. Thus a person is a fiduciary to the extent “(i) he
8 exercises any discretionary authority or discretionary control respecting management
9 of such plan or exercises any authority or control respecting management or
10 disposition of its assets, (ii) he renders investment advice for a fee or other
11 compensation, direct or indirect, with respect to any moneys or other property of such
12 plan, or has any authority or responsibility to do so, or (iii) he has any discretionary
13 authority or discretionary responsibility in the administration of such plan.” ERISA
14 § 3(21)(A)(i), 29 U.S.C. § 1002(21)(A)(i).

15 93. Each of the Defendants was a fiduciary during the Class Period as
16 defined by ERISA Section 3(21)(A), 29 U.S.C. § 1002(21)(A)—either as a named
17 fiduciary or *de facto* fiduciary—with respect to the Plans and owed fiduciary duties to
18 the Plans and their participants under ERISA in the manner and to the extent set forth
19 in the Plans’ documents, through their conduct, and under ERISA.

20 94. The Plan Document provides that “[t]he general administration of the
21 Plan and the responsibility for carrying out the provisions of the Plan shall be
22 assigned to (the Committee).” *See* Plan Document § 9.01. The Committee also
23 “interprets (the Plan’s) provisions and resolves all issues arising in the administration
24 of the Plan.” *See* Plan’s 2014 Financial Statements at Note 1.

25 95. As set forth above, the Plan Document also provided the Committee the
26 authority and discretion to, among other things: (a) determine the “number and
27 character” of the investment options available to the Plan’s participants; (b) limit or
28 eliminate the availability of an investment option; and (c) adopt rules and procedures

1 concerning the selection and use of the investment options available to Plan
2 participants. *See* ¶¶ 27-28, *supra* and Plan Document §§ 6.01(a)(ii) and (h).

3 96. Under the Plan Document, the Committee has “full discretionary power
4 and authority as may be necessary to carry out the provisions of the Plan and to
5 control and manage the operation and administration of the Plan” *See* Plan
6 Document § 9.06. This includes the discretionary power to “impose reasonable
7 restrictions (including temporary prohibitions) on Participants’ contribution elections,
8 changes in contribution elections, investment elections, changes in investment
9 elections, loans, withdrawals, and distributions to accommodate the administrative
10 requirements of the Plan.” *Id.* § 9.06(f).

11 **DEFENDANTS’ FIDUCIARY DUTIES UNDER ERISA**

12 97. ERISA imposes strict fiduciary duties upon plan fiduciaries. ERISA
13 § 404(a), 29 U.S.C. § 1104(a), states, in relevant part, that:

14 [A] fiduciary shall discharge his duties with respect to a plan
15 solely in the interest of the participants and beneficiaries and . .
16 . for the exclusive purpose of providing benefit to participants
17 and their beneficiaries; and defraying reasonable expenses of
18 administering the plan; with the care, skill, prudence, and
19 diligence under the circumstances then prevailing that a prudent
20 man acting in a like capacity and familiar with such matters
21 would use in the conduct of an enterprise of like character and
with like aims; by diversifying the investments of the plan so as
to minimize the risk of large losses, unless under the
circumstances it is clearly prudent not to do so; and in
accordance with the documents and instruments governing the
plan insofar as such documents and instruments are consistent
with the provisions of this title and Title IV.

22 98. ERISA imposes on a plan fiduciary the duty of loyalty—that is, the duty
23 to “discharge his duties with respect to a plan solely in the interest of the participants
24 and beneficiaries and . . . for the exclusive purpose of . . . providing benefits to
25 participants and their beneficiaries” *See* ERISA § 404(a)(1)(A), 29 U.S.C.
26 § 1104(a)(1)(A).

27 99. The duty of loyalty entails a duty to avoid conflicts of interest and to
28 resolve them promptly when they occur. A fiduciary must always administer a plan

1 with an “eye single” to the interests of the participants and beneficiaries, regardless of
2 the interests of the fiduciaries themselves or the plan sponsor.

3 100. Section 404(a)(1)(B) of ERISA also imposes on a plan fiduciary the duty
4 of prudence—that is, the duty “to discharge his duties with respect to a plan solely in
5 the interest of the participants and beneficiaries and . . . with the care, skill, prudence,
6 and diligence under the circumstances then prevailing that a prudent man, acting in a
7 like capacity and familiar with such matters would use in the conduct of an enterprise
8 of a like character and with like aims” *See* ERISA § 404(a)(1)(B), 29 U.S.C.
9 § 1104(a)(1)(B).

10 101. For a retirement plan such as the Plan, the duties of loyalty and prudence
11 also entail a duty to conduct an independent investigation into, and continually to
12 monitor, the merits of the investment alternatives in the Plans including employer
13 securities, to ensure that each investment is a suitable option for the Plans.

14 102. A fiduciary to a large 401(k) plan, like the Plan, has a duty to
15 periodically examine and check the Plan’s investments. *Tibble v. Edison Int’l*, 135 S.
16 Ct. 1823 (2015).

17 103. Given the Plan’s large holding in the Fund and the serious risks
18 associated with lack of diversification, a prudent fiduciary would have removed or
19 replaced the Fund when it stopped violated its own limitations on concentration.

20 104. Fiduciaries who have the responsibility for appointing other fiduciaries
21 have the further duty to monitor the fiduciaries thus appointed. The duty to monitor
22 entails both giving information to and reviewing the actions of the appointed
23 fiduciaries. In a 401(k) plan such as the Plan the monitoring fiduciaries must therefore
24 ensure that the appointed fiduciaries:

- 25 (a) possess the needed credentials and experience, or use
26 qualified advisors and service providers to fulfill their
duties;
- 27 (b) are knowledgeable about the operations of the Plans the
28 goals of the Plan and the behavior of Plans’ participants;

- 1 (c) are provided with adequate financial resources to do their jobs;
- 2
- 3 (d) have adequate information to do their jobs of overseeing the Plan investments with respect to company stock;
- 4 (e) have access to outside, impartial advisors when needed;
- 5 (f) maintain adequate records of the information on which they base their decisions and analysis with respect to the Plans' investment options; and
- 6
- 7 (g) report regularly to the monitoring fiduciaries.

8
9 The monitoring fiduciaries must then review, understand, and approve the conduct of the hands on fiduciaries.

10
11 105. A fiduciary is liable not only for fiduciary breaches within the sphere of his own responsibility, but also as a co-fiduciary in certain circumstances. ERISA
12 § 405(a), 29 U.S.C. § 1105(a), states, in relevant part, that:

13
14 In addition to any liability which he may have under any other provision of this part, a fiduciary with respect to a plan shall be
15 liable for a breach of fiduciary responsibility of another fiduciary with respect to the same plan in the following
16 circumstances:

- 17 (1) if he participates knowingly in, or knowingly undertakes to conceal, an act or omission of such other fiduciary, knowing such act or omission is a breach; or
- 18
- 19 (2) if, by his failure to comply with section 404(a)(1) in the administration of his specific responsibilities which give rise to his status as a fiduciary, he has enabled such other fiduciary to commit a breach; or
- 20
- 21
- 22 (3) if he has knowledge of a breach by such other fiduciary, unless he makes reasonable efforts under the circumstances to remedy the breach.
- 23

24 106. Under ERISA, non-fiduciaries who knowingly participate in a fiduciary
25 breach may themselves be liable for certain relief under ERISA § 502(a)(3),
26 29 U.S.C. § 1132(a)(3).

CLASS ACTION ALLEGATIONS

1
2 107. To the extent appropriate, Plaintiff brings this action as a class action
3 pursuant to Rules 23(a), (b)(1), (b)(2), and/or (b)(3) of the Federal Rules of Civil
4 Procedure on behalf of Plaintiff and the following class of persons similarly situated
5 (the “Class”):

6 All persons, excluding Defendants, who were participants in or
7 beneficiaries of the Plan at any time from January 1, 2015 up to
8 and including the date of judgment in this action (the “Class
Period”) and whose Plan accounts included investments in the
Sequoia Fund (the “Class”).

9 108. The members of the Class, which is estimated to number in the
10 thousands, are so numerous that joinder of all members is impracticable. Indeed,
11 based on public filings by the Plan, there are potentially thousands of class members.
12 For instance, based on the Plan’s Form 5500 Annual Returns filed with the
13 Department of Labor (“DOL”) and dated October 14, 2015 lists 51,513 Participants in
14 the Plan for the plan year ending 2014.

15 109. Common questions of law and fact exist as to all members of the Class
16 and predominate over any questions affecting solely individual members of the Class,
17 including:

- 18 (a) whether Defendants each owed a fiduciary duty to the
19 Plan, Plaintiff and members of the Class;
- 20 (b) whether Defendants breached their fiduciary duties to the
21 Plan, Plaintiff and members of the Class by failing to act
22 prudently and solely in the interests of the Plan and the
23 Plan’s participants and beneficiaries;
- 24 (c) whether Defendants violated ERISA; and
- 25 (d) whether the Plan and members of the Class have
26 sustained damages and, if so, what is the proper measure
27 of damages.

28 108. Plaintiff’s claims are typical of the claims of the members of the Class
because Plaintiff, the Plan and the other members of the Class each sustained

1 damages arising out of Defendants' wrongful conduct in violation of federal law as
2 complained of herein.

3 109. Plaintiff will fairly and adequately protect the interests of the members
4 of the Class and has retained competent counsel experienced in class actions and
5 ERISA litigation. Plaintiff has no interests antagonistic to or in conflict with those of
6 the Plans or the Class.

7 110. Class action status is warranted under Rule 23(b)(1)(B) because
8 prosecution of separate actions by the members of the Class would create a risk of
9 adjudications with respect to individual members of the Class which would, as a
10 practical matter, be dispositive of the interests of the other members not parties to the
11 actions, or substantially impair or impede their ability to protect their interests.

12 111. Class action status is also warranted under Rule 23(b)(1)(A) because
13 prosecution of separate actions by the members of the Class would create a risk of
14 establishing incompatible standards of conduct for Defendants.

15 112. Class action status is warranted under Rule 23(b)(2) because Defendants
16 have acted or refused to act on grounds generally applicable to the Class, thereby
17 making appropriate final injunctive, declaratory, or other appropriate equitable relief
18 with respect to the Class as a whole.

19 113. Class action status is warranted under Rule 23(b)(3) because a class
20 action would be superior to individual actions and common questions of law and fact
21 predominate over individual questions.

22 **CLAIMS FOR RELIEF**

23 **FIRST CAUSE OF ACTION**

24 **(Failure to Prudently and Loyalily Manage the Plan and Assets of the Plan)**

25 (Plaintiff v. All Defendants)

26 114. Plaintiff incorporates by reference the paragraphs above.

27 115. As alleged above, during the Class Period, Defendants were named
28 fiduciaries pursuant to ERISA § 402(a)(1), 29 U.S.C. § 1102(a)(1), or *de facto*

1 fiduciaries within the meaning of ERISA § 3(21)(A), 29 U.S.C. § 1002(21)(A), or
2 both. Thus, they were bound by the duties of loyalty, exclusive purpose, and
3 prudence.

4 116. As alleged above, the scope of the fiduciary duties and responsibilities of
5 Defendants included managing the assets of the Plan for the sole and exclusive
6 benefit of Participants and beneficiaries and with the care, skill, diligence, and
7 prudence required by ERISA. Defendants were directly responsible for, among other
8 things, selecting and offering only prudent investment options, eliminating imprudent
9 options, determining how to invest employer contributions to the Plan and directing
10 the Master Trust's trustee regarding the same, determining how to invest Fund assets
11 as "advisable," evaluating the merits of the Plan's investments on an ongoing basis,
12 administering the operations of the Master Trust and taking all necessary steps to
13 ensure that the Plan's assets were invested prudently.

14 117. According to United States Department of Labor ("DOL") regulations
15 and case law interpreting this statutory provision, a fiduciary's investment or
16 investment course of action is prudent if: (a) he has given appropriate consideration to
17 those facts and circumstances that, given the scope of such fiduciary's investment
18 duties, the fiduciary knows or should know are relevant to the particular investment
19 or investment course of action involved, and (b) he has acted accordingly.

20 118. Defendants were obliged to prudently and loyally manage all of the
21 Plan's assets pursuant to these duties.

22 119. Defendants had a duty to follow a regular, appropriate systematic
23 procedure to evaluate the prudence of maintaining the Sequoia Fund as an investment
24 in the Plan. They failed to conduct an appropriate investigation of the merits of
25 continued investment in the Sequoia Fund. Given that the Sequoia Fund was "non-
26 diversified," its open violation of the Concentration Policy and the Value Policy and
27 the widespread public disclosure about the riskiness of Valeant itself, its poor
28 performance and its high fees, such an investigation would have revealed no later

1 than September 2015 to a reasonably prudent fiduciary the imprudence of continuing
2 to offer the Sequoia Fund as an investment option or make and maintain investment
3 in the Fund under these circumstances.

4 120. Contrary to their duties and obligations under the Plan Document and
5 ERISA, Defendants failed to prudently manage the assets of the Plan. Specifically,
6 during the Class Period, Defendants knew or should have known that the Sequoia
7 Fund was no longer a suitable and appropriate investment for the Plan, but was,
8 instead, an imprudent investment in light of widely available public information.

9 121. Nonetheless, during the Class Period, these Defendants continued to
10 permit the Plan to offer the Sequoia Fund as an investment option and continued to
11 permit the Plan to invest in the Sequoia Fund.

12 122. Defendants breached their fiduciary duty respecting the Plan's
13 investment in the Sequoia Fund described above, under the circumstances alleged
14 herein, in that a prudent fiduciary acting under similar circumstances would have
15 made different investment decisions and, in particular, would not have permitted the
16 Plan to offer or invest in the Sequoia Fund.

17 123. Given the information described above, Defendants could not possibly
18 have acted prudently when they continued to offer or invest the Plan's assets in the
19 Sequoia Fund because, among other reasons:

- 20 (a) Defendants knew of and/or failed to investigate the
21 Sequoia Fund circumstances as alleged above;
- 22 (b) The risk associated with the investment in the Sequoia
23 Fund during the Class Period was by far above and
beyond the normal, acceptable risk associated with
retirement plan investments.

24 124. Knowing of this extraordinary risk, Defendants had a duty to remove the
25 Sequoia Fund as an investment option for the Plan's participants and avoid permitting
26 the Plan or any Participant from investing the Plan's assets in it.

1 125. Further, knowing that the Plan was heavily invested in the Sequoia Fund,
2 Defendants had a heightened responsibility to divest the Plan of the Sequoia Fund
3 when it was imprudent.

4 126. As a consequence of Defendants' breaches of fiduciary duty alleged in
5 this Count, the Plan suffered tremendous losses. If Defendants had discharged their
6 fiduciary duties to prudently invest the Plan's assets, the losses suffered by the Plan
7 would have been minimized or avoided. Therefore, as a direct and proximate result of
8 the breaches of fiduciary duty alleged herein, the Plan, and indirectly Plaintiff and the
9 other Class members, lost millions of dollars of retirement savings.

10 127. Pursuant to ERISA §§ 409, 502(a)(2) and (a)(3), 29 U.S.C. §§ 1109,
11 1132(a)(2) and (a)(3), Defendants are liable to restore the losses to the Plans caused
12 by their breaches of fiduciary duties alleged in this Count and to provide other
13 equitable relief as appropriate.

14 SECOND CAUSE OF ACTION

15 (Failure to Follow the Express Terms of the Plan)

16 (Plaintiff v. All Defendants)

17 128. Plaintiff incorporates by reference the allegations above.

18 129. As alleged above, the Plan specifically required that each Investment
19 Fund offered to Plan Participants "*shall be diversified.*" See Plan Document
20 § 6.01(h)(i) (emphasis added). The Plan Document further recognizes that "[t]he
21 Company recognizes that an investment in an undiversified fund . . . is subject to
22 greater risk than is an investment in a diversified fund" *Id.* § 6.01(a)(i)(D).

23 130. Maintaining the Plan's investment in the Sequoia Fund violated the
24 Plan's prohibition on non-diversified funds, since the Fund's own prospectus
25 specifically stated that that the Fund was "non-diversified," meaning that more than
26 5% of its assets were invested in the securities of one company. See 15 U.S.C. § 80a-
27 5(b); Sequoia Fund's 2015 Prospectus, available at:
28 http://www.sequoiafund.com/prospectus_files/Pros15.pdf.

1 131. By 2015, moreover, the Sequoia Fund was so far from being diversified
2 that it violated the Fund's *own* limitations on concentration of assets, with Valiant
3 securities accounting for over 28 percent of the Fund's assets.

4 132. Pursuant to ERISA §§ 409, 502(a)(2) and (a)(3), 29 U.S.C. §§ 1109,
5 1132(a)(2) and (a)(3), Defendants are liable to restore the losses to the Plans caused
6 by their breaches of fiduciary duties alleged in this Count and to provide other
7 equitable relief as appropriate.

8 **THIRD CAUSE OF ACTION**

9 **(Co-Fiduciary Liability)**

10 (Plaintiff v. All Defendants)

11 133. Plaintiff incorporates by reference the allegations above.

12 134. This Count alleges co-fiduciary liability against all Defendants.

13 135. As alleged above, during the Class Period Defendants were named
14 fiduciaries pursuant to ERISA § 402(a)(1), 29 U.S.C. § 1102(a)(1), or *de facto*
15 fiduciaries within the meaning of ERISA § 3(21)(A), 29 U.S.C. § 1002(21)(A), or
16 both. Thus, they were bound by the duties of loyalty, exclusive purpose, and
17 prudence.

18 136. As alleged above, ERISA § 405(a), 29 U.S.C. § 1105(a), imposes
19 liability on a fiduciary, in addition to any liability which he may have under any other
20 provision, for a breach of fiduciary responsibility of another fiduciary with respect to
21 the same plan if he knows of a breach and fails to remedy it, knowingly participates in
22 a breach, or enables a breach. Defendants breached all three provisions.

23 137. ERISA § 405(a)(3), 29 U.S.C. § 1105(a)(3), imposes co-fiduciary
24 liability on a fiduciary for a fiduciary breach by another fiduciary if he has knowledge
25 of a breach by such other fiduciary, unless he makes reasonable efforts under the
26 circumstances to remedy the breach. Upon information and belief, each Defendant
27 knew of the breaches by the other fiduciaries and made no efforts, much less
28 reasonable ones, to remedy those breaches.

1 138. ERISA § 405(a)(1), 29 U.S.C. § 1105(a)(1), imposes liability on a
2 fiduciary for a breach of fiduciary responsibility of another fiduciary with respect to
3 the same plan if he participates knowingly in, or knowingly undertakes to conceal, an
4 act or omission of such other fiduciary, knowing such act or omission is a breach.
5 Defendants knowingly participated in the breaches of the other Defendants because,
6 as alleged above, each of the Defendants participated in the management of the Plan's
7 improper investment in the Sequoia Fund and, upon information and belief,
8 knowingly participated in the improper management of that investment by the other
9 Defendants.

10 139. ERISA § 405(a)(2), 29 U.S.C. § 1105(a)(2), imposes liability on a
11 fiduciary if, by failing to comply with ERISA § 404(a)(1), 29 U.S.C. § 1104(a)(1), in
12 the administration of his specific responsibilities which give rise to his status as a
13 fiduciary, he has enabled another fiduciary to commit a breach.

14 140. As a direct and proximate result of the breaches of fiduciary duties
15 alleged herein, the Plan, and indirectly Plaintiff and other Participants and
16 beneficiaries, lost millions of dollars of retirement savings.

17 141. Pursuant to ERISA §§ 409, 502(a)(2) and (a)(3), 29 U.S.C. §§ 1109,
18 1132(a)(2) and (a)(3), Defendants are liable to restore the losses to the Plan caused by
19 their breaches of fiduciary duties alleged in this Count and to provide other equitable
20 relief as appropriate.

21 **PRAYER FOR RELIEF**

22 WHEREFORE, Plaintiff prays for:

23 1. A Declaration that Defendants, and each of them, have breached their
24 ERISA fiduciary duties to the participants;

25 2. An Order compelling Defendants to make good to the Plan all losses to
26 the Plan resulting from Defendants' breaches of their fiduciary duties, including loss
27 of vested benefits to the Plans resulting from imprudent investment of the Plans'
28 assets; to restore to the Plans all profits Defendants made through use of the Plans'

1 assets; and to restore to the Plans all profits which the Plans and participants would
2 have made if Defendants had fulfilled their fiduciary obligations;

3 3. Imposition of a constructive trust on any amounts by which any
4 Defendant was unjustly enriched at the expense of the Plans as the result of breaches
5 of fiduciary duty;

6 4. An Order enjoining Defendants, and each of them, from any further
7 violations of their ERISA fiduciary obligation;

8 5. An Order requiring Defendants to appoint one or more independent
9 fiduciaries to participate in the management of the Plans' investments;

10 6. Actual damages in the amount of any losses the Plans suffered, to be
11 allocated among the participants' individual accounts in proportion to the accounts'
12 losses;

13 7. An Order awarding costs pursuant to 29 U.S.C. § 1132(g);

14 8. An Order awarding attorneys' fees pursuant to the common fund
15 doctrine, 29 U.S.C. § 1132(g), and other applicable law; and

16 9. An Order for equitable restitution and other appropriate equitable and
17 injunctive relief against all Defendants.
